PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

An ammunition supply depot is located (Figure 1) 13 kilometers (km) east-southeast of Tverdysh (55-45N 064-30E) and 51.4 km northwest of Kurgan (55-27N 065-20E). This installation is served by a spur of the Kurgan-Tverdysh rail line and by a probable hard-surface, all-weather road. A support area is located 1.7 km south of the storage area, and a barracks area is located 2.3 km south of the storage area.

The installation (Figures 2 and 3) covers approximately 360 acres and includes a total

of 205 buildings, of which there are two administrative buildings, seven barracks, 164 storage buildings, one transshipment shed, two probable guard shacks/checkpoints, and 29 general support. The installation is divided into a double-fenced storage area, a support area, and a barracks area.

The most recent coverage of the installation [redacted] and there has been no apparent change since its initial coverage [redacted]

DESCRIPTION OF INSTALLATION

Railroad Service

A single spur from the Kurgan-Tverdysh rail line serves the installation. There is a transshipment shed in Area F (Figure 1).

Road Service

A probable hard surface all-weather road connects the installation with points along the Kurgan-Tverdysh rail line.

Administrative and Troop Housing Areas

Area D1 contains 13 support buildings.

Area D2 contains seven barracks, two ad-

ministrative buildings, and 11 general support buildings.

Both areas are connected to the storage area by a probable hard surface road and a spur of the Kurgan-Tverdysh rail line.

Ammunition Storage Area

Area F contains one hundred sixty-four 100-by 35-foot storage buildings, two probable guard shacks/checkpoints, four general support buildings, and one transshipment shed.
